Complementary therapists wishing to
further their knowledge of]cancer and
working appropriately with
cancer patients

Complementary Therapies Day 1 *'Cancer & Its Treatments'*

Date: March 9th October 5th

Time: Registration - 9.15am Start 9.30 - 16.30

Venue: Lecture Hall
Michael Sobell Education Centre

Content: This is a highly informative 1 day workshop which covers: an overview of cancer, its impact and its treatments. It is open to complementary therapists, volunteers, health care professionals and to staff with a non oncology background. You will leave with a broad understanding of cancer, how it is treated and an awareness of the side effects of treatments.

Outcome: Participants will have a broad based understanding about cancer, how it is treated and an awareness of the side effects of treatments

Cost: Free of charge for Mount Vernon Cancer Centre / Network Staff
£75 per day for all other participants

Complementary Therapies Day 2 *'Using Complementary Therapies with Cancer Patients'*

Date: March 16th October 12th Nov ember 12th

Time: Registration - 9.15am Start 9.30 - 16.30

Venue: Postgraduate Centre
Mount Vernon Cancer Centre

Content: Only open to therapists, this is an opportunity to increase your confidence in working appropriately with cancer patients and adapting your therapies to meet their needs. You will have presentations on the patient journey and therapist experience as well as time to experience case studies, group work, guidelines and practical demonstrations.

Outcome: At the end of this workshop therapists will have more confidence & a greater understanding of ways of adapting their practical therapy to work with people with cancer

Cost: Free of charge for Mount Vernon Cancer Centre / Network Staff
£75 per day for all other participants
