

Complementary Therapy Network

Since the Lynda Jackson Centre (LJC) opened in 1993 we have established a wide network of professionally registered and experienced therapists who are interested in using their skills to work with people affected by cancer. These therapists have undertaken further training with us in cancer care.

Many patients have already benefited from the complementary therapy provided at the LJC or on the wards. By providing this list, we hope that we will encourage people affected by cancer to contact local therapists and enjoy the benefits of complementary therapy.

In order to be part of our network, therapists will:

- have complementary therapy qualifications, recognised by their relevant governing bodies
- be registered with their relevant professional bodies (updated annually)
- have up-to-date professional indemnity insurance (updated annually)
- have been practising their therapy for at least one year after qualification
- have undertaken training with the LJC on cancer treatments, side effects, and psychological effects on people affected by cancer

Each therapist has provided his/her own details for this factsheet and each will have their own set of charges.

Some may offer a sliding scale, depending on clients' means.

Some therapists may carry out home visits. Please ask them.

Your therapist will be happy to show you their professional body and insurance certificates should you wish to see them.

Please be aware that inclusion in this list does not imply or suggest a recommendation by the LJC.

If you have any questions or would like further information about any of the therapies mentioned in this list, please contact our Complementary Therapy Co-ordinator on 020 3826 2553.

Disclaimer: To be listed here is not proof of professionalism or that the therapist is competent.

The LJC cannot be held responsible for any damage, injury or loss caused as the result of any therapy, advice or treatment given by any practitioner listed on these pages.

Please note this is a changing list and Therapists are constantly having to adapt to both government and professional body guidance, the current Covid-19 climate and their own personal situations.
