

How to contact me

The best way to contact me is by telephone on:

020 3826 2096 or **07766 244768**

If I am not available, please leave me a message on my voicemail and I will return your call as soon as I am able. Please note: this is not an emergency number.

My normal working hours are:

Monday	9.30am - 2.30pm
Tuesday	9.30am - 2.30pm
Wednesday	7.00am - 3.00pm
Thursday	8.00am - 7.00pm
Friday	9.00am - 7.00pm

If you need emergency medical advice at night, weekends or public holidays, please contact the **24 hr Acute Oncology Service** on: **07825 028855**

Please note: When you start your treatment, potential side effects will be explained to you. If you are having chemotherapy and show signs of an infection, ie, serious cough, breathlessness and/or raised temperature, you should call the 24 hr Acute Oncology Service directly.

Getting more support and information

Visit or call the Lynda Jackson Macmillan Centre at Mount Vernon Cancer Centre.

The centre is staffed by healthcare professionals and specially trained volunteers who are able to provide support and information on all aspects of cancer and its treatments.

Telephone Helpline: **020 3826 2555**

Website: **www.ljmc.org**

**Mount Vernon
Cancer Centre**

Northwood, Middlesex HA6 2RN
020 3826 2020

Introducing your Clinical Nurse Specialist:

Tanya Betts

**Macmillan Neuro-oncology
Clinical Nurse Specialist**

As you are starting treatment at Mount Vernon Cancer Centre, I would like to introduce myself to you and explain how I may be able to help you throughout your time in our care.

My name is **Tanya Betts**. I am the Clinical Nurse Specialist for patients with neurological cancers.

My role is to be a key point of contact (Key Worker) for you while you are having treatment at the Cancer Centre.

I will be involved in your individual treatment programme and work closely with other members of the multidisciplinary teams (MDTs) responsible for your care.

The MDTs include health professionals who, together with you and your specialist doctor, discuss your diagnosis and plan your care and treatment.

There are two MDTs:

Neuroscience MDT: discusses surgical options appropriate to your diagnosis.

The Rehabilitation and Non-Surgical MDT: discusses other treatments, your rehabilitation, supportive and palliative care needs.

No decisions about your treatment or care will be made without discussion with you.

Starting treatment for cancer can be a confusing and worrying time for you and your family and it is my role to help reduce the stress and anxiety that you may be experiencing.

I will meet you at your first appointment at the Mount Vernon Cancer Centre. If you are staying in the hospital overnight, please ask one of the nurses to contact me and I will try to visit you on the ward.

Some of the ways in which I may help you include:

- Explain your diagnosis
- Explain your test results and treatment options
- Provide you with written information
- Assess and advise you if you are concerned about any side effects of treatment
- Assist you and your family to manage your health at home both during and after your treatment
- Explain current research and information from websites and the media
- Offer support and signpost you to appropriate services, eg, counselling
- Advise you on how to apply for financial welfare benefits
- Liaise with the multi-disciplinary team (MDT) treating you
- Liaise with your GP and/or local hospital as appropriate

Support groups

Support groups are self-help groups for people affected by cancer to share feelings and gain mutual support.

They offer a range of services, such as meetings, telephone helplines, drop-in centres, home visiting, information and practical help. Some have complementary therapists or provide information about therapies.

There are a number of nurse-led support groups specifically for people with brain tumours and their carers. The nearest ones are:

- Bedford
- High Wycombe
- Hillingdon
- Luton
- North London

For further details of these and other local cancer support groups please call the Lynda Jackson Macmillan Centre (see overleaf for details).
